

2009 TRAINING OPPORTUNITIES

Dear Preservationists:

Sharpening our skills or finding continuing education training (whether for ourselves or others) should be a high priority. To make this chore easier, I have compiled a list of activities in the Western United States or those that have special significance. Please take the time to review the list and follow the links. The following is a list of activities you should strongly consider participating in or send a delegate to represent your organization. There are many other training opportunities on the East Coast and if you need more information you can either follow the links or contact me specifically about your needs. The list is not comprehensive and you should check DAHP's website for updates. For more information contact Russell Holter 360-586-3533.

Is your Board boring? A new posting is the Better Boards Workshop. The National Trust offers a three-day working seminar tailored to community needs for Preservation Advocacy Groups and non-profit preservation organizations. For more information on how you can schedule a three-day retreat for your board contact the Center for Preservation Leadership at the National Trust: 202-588-6067.
